

# Dracula: And Other Vampires (Greatest Movie Monsters)

This is an entertaining look at the vampire phenomenon. Beginning with a full-bodied history on the appearance of vampires in early literature and moving on to more modern film and television iterations, including *Twilight*, *True Blood*, and even Count von Count on *Sesame Street*, this book takes a bite out of vampire lore to show how readers and theatergoers have always been fascinated by these creatures of the night. It also explains how vampires have changed physically over the years, a major feat for an undead creature. The resource ends with a filmography that gives details on most major vampire films.
