As the market-leading text for the art history survey course, GARDNERS ART THROUGH THE AGES has served as a comprehensive and thoughtfully crafted guide to the defining phases of the world's artistic tradition. The story of art unfolds in its full historical, social, religious, economic, and cultural context, deepening students' understanding of art, architecture, painting, and sculpture. This version explores the history of art in the Western world in a concise 23-chapter format (also available in a two-volume split). GARDNERS ART THROUGH THE AGES: THE WESTERN PERSPECTIVE features such enhancements as more color photographs, a stunning new design, and the most current research and scholarship. Unique to survey texts with a Western Art focus, the authors include a chapter on Islam, providing students with insightful coverage of the Islamic traditions' impact on Western culture and art history. Additionally, every copy of the text contains a free copy of the ArtStudy 2.1 CD-ROM—an interactive electronic study aid that fully integrates with the text and includes hundreds of high-quality digital images, plus maps, quizzes, and more.
